

ELECTION FOR NHS FIFE BOARD MEMBERS 2010 VOTE JOHN WINTON

In the next 2 years hospital facilities in Fife will change dramatically with the new hospital at Victoria and new facilities in Cupar and St Andrews. Changes to make a State of the Art Diagnostic & Treatment Centre at Queen Margaret are now delayed and subject to possible further delays due to the financial climate.

This election has come about due to the lack of response by Health Boards to public concerns re health provision which certainly rings true here in West Fife.

As Chair of Local Health Concern and being a Dunfermline resident I have been deeply involved as a member of various groups over the last 7 years giving me an in-depth knowledge of NHS Fife workings. You may have seen my comments in the local media on health provision in this area.

I ask for your vote in this postal ballot and if elected would promise to:-

- Press for maximum services to stay locally to avoid your travel to main Kirkcaldy Hospital wherever possible.
- Press for NHS Fife to be open and keep you informed.
- Hold surgeries where you can pass on concerns re health service provision in this area.

Meet me at Del Farquharson Centre Wed 19 May at 7.30pm for questions etc.

VOTE JOHN WINTON FOR NHS FIFE BOARD
